PROFILE

I am 22 and based in North / West London. I've been creating video and other creative content since I was 11 and always knew it was what I wanted to do as a career.

Since then, I've built up a wide-ranging, professional portfolio of video and photography work covering corporate, events, property, drama and more.

Having done an Apprenticeship, I bring a balance of youthful enthusiasm, an eagerness to learn and experience that few others my age can offer.
